

Rohit yadav

Electronics & Communication Engineer

Email:- ry062465@gmail.com

Contact NO:-7355988576

Address:-pahanpur, ghazipur,233307,

Career Objective

"To leverage my expertise in Electronics and Communication Engineering with a specialization in electronics, applying 2 years of experience in circuit design, embedded systems, and semiconductor technologies to contribute to innovative product development and advance my career in cutting-edge electronics engineering."

Work Experience

Company Name:- Marelli Motherson Automatic Lighting India Pvt Ltd Sanand Ahemdabad Gujarat

DOJ- 30-08-2024

Dipartment - Assembly

Work – The Team Of Production.

- ⌘ **Circuit Design & Analysis:** Designing analog and digital circuits for various applications.
- ⌘ **VLSI & Semiconductor Devices:** Working on chip design, fabrication, and testing.
- ⌘ **Power Electronics:** Designing converters, inverters, and controllers for industrial and renewable energy systems.
- ⌘ **Power Electronics: Designing converters, inverters, and controllers for industrial and renewable energy systems.**
- ⌘ **Communication Electronics: Signal processing, modulation, and hardware for communication devices.**

Educational Qualification

- Diploma in Electronics & communication engineer – [Sant Ravidas Government Polytechnic Chakia Chandauli, 232105,passing year:-2024]
- Secondary (10th) – [Uttar Pradesh Board & passing year:-2020]

Technical Skills

- * Programing in C language
- * Embedded C
- * Arduino Design
- * PCB Design

Key Strengths

- ❖ Strong problem-solving and analytical skills
- ❖ Quick learner and adaptable to new technologies
- ❖ Ability to work efficiently in team and under pressure
- ❖ Good communication and interpersonal skills

Projects /Training

Anti Sleep alert System :- An **Anti-Sleep Alert System** is a practical safety innovation that combines **sensor technology, physiological monitoring, and alert mechanisms** to reduce fatigue-related accidents. It is especially valuable in **transportation and industrial sectors**, though its effectiveness depends on proper calibration and user acceptance.

Personal Information

- Ø Date of Birth: [07-07-2005]
- Ø Languages Known: [English, Hindi]
- Ø Nationality: Indian
- Ø Marital Status: [Single]

Electronics & Communication Engineer –Electronics Specialization

An **Electronics & Communication Engineer with Electronics Specialization** focuses on the **core electronics domain** while still leveraging communication engineering principles. This specialization is ideal for roles in **semiconductors, embedded systems, consumer electronics, and industrial automation**.
